- Access to Call recordings wherever approved or possible

Our Differentiators

mediXcelConnect

- Built on MediXcel
 - Our sturdy platform powers large hospitals and diagnostic centers, multi-clinic chains and now the same design and stability is here to help your OPD practice.
- Design:
 - Pre-created Templates for Consults and Lab parameters for quick data entry even on Phones and Tablets.
- Security and Compliance:
 - Access Control with Comprehensive Audit Trail as per 21 CFR, HIPAA, and Indian EMR Standards
- Quick to Start
 - You can be online in less than a day and take even less to train and get going

Simple Patient Workflow

mediXcelConnect

1

- Patient Calls for future appointment or Patient walks in for an immediate consult

2

- If repeat patient: MediXcel adds an Appointment by searching the patient via Name, Aadhar or mobile no
- If new patient: Open Add new patient page. Capture demographics, and then add an appointment

3

- Once the patient arrives, he / she is marked as arrived in MediXcel
- Patient pays the bill or takes a number for waiting

4

- Patient goes in and Vitals / History are taken by Nurse or Junior Doctor.
- If it is a Tele-consult, the video call link is shared with Doctor and Patient on SMS and Email.

5

- Doctor reviews the patient and fills in the other sections in the Medical record.
- Doctor also has access to the past medical history from previous visit.

6

- Doctor completes the appointment and updates the Diagnosis, Treatment plan, prescriptions if any along with any further tracking information. Patient is marked as checked out

8

- MediXcel can now – Send Prescriptions via SMS / Email
- If the workflow demands, patient can pay the balance payment before leaving to trigger prescription SMS.

Anytime, Anywhere Secure Platform

mediXcelConnect

- MediXcelConnect is equipped to work on the cloud
- On the cloud means you have:
 - Anytime and Anywhere access with an internet enabled device (PC, Laptop, Tablet, Phone)
 - Pay as you use
 - Lower investment on hardware
 - No Downtime
 - No headache of Server Maintenance and Security
 - Safer from Data Loss and Data Theft
 - Secure Data at Rest (AES) and in Transit (SSL)
 - Follows guidelines: HIPAA, Indian EHR Standards
